

## **Invitation to Participate in Research**

Parent/Guardian/Carer,

I would like to invite you to take part in this research project exploring parent/guardian experiences of the transition to adulthood and adult services for autistic youth with intellectual disability. This research is being conducted as part of the PhD in Clinical Psychology with the University of Limerick and has received ethical approval from St. Michael's House Research Ethics Committee.

You can participate if...

1. You are a parent/guardian/carer of a young autistic adult with intellectual disability.
2. You are willing and available to speak with the researcher by phone, online, or in person about your experiences of your son/daughter's transition to adulthood and adult services.

If you would like more information or want to take part in this study, please make contact with the researcher to express your interest using the below contact details.

Email: [17026512@studentmail.ul.ie](mailto:17026512@studentmail.ul.ie)

Phone: 0872172822

I would like to hear from as many parents as possible, so your participation is very much appreciated. Your participation is completely voluntary and it will be kept confidential. The interview will last for approximately 60 minutes, and you will be asked some questions about your experience of your son/daughter's move into adulthood and adult services. You will be provided with further information and have the opportunity to ask questions when you make contact with the researcher.

Thank you for taking the time to read this invitation.

All the best,

Kalem Mahon
